# DESlock Joins ESET Technology Alliance Program

- UK encryption solution, DESlock has become the first entrant to join the newly formed Technology Alliance Program, from leading security solution provider, ESET.

**Taunton, UK, 01st October 2013** DESlock Limited, the UK leader in data encryption solutions, has become the first entrant into the newly formed ESET Technology Alliance Program. The aim of the program is to better protect businesses with a range of complementary IT security solutions that seamlessly integrate with ESET's range of security solutions.

*"At ESET, protection of our customers, their data, and business infrastructure always comes first,"* said Ignacio Sbampato, ESET Chief Sales and Marketing Officer. *"We chose DESlock as the first strategic member of ESET Technology Alliance because of its strong encryption technology, and are pleased to offer their encryption solution through the Alliance with our selected products."*

DESlock provides a well established encryption product, via a simple-to-use application with unique architecture, to provide powerful data encryption to large enterprises or smaller SMEs. This solution protects against all types of data breaches while allowing fully secure collaboration across complex workgroups and teams. The product integration will provide ESET customers with better protection of company infrastructure as well as effective encryption on employees' mobile devices.

In addition to DESlock's existing channel partners, the product is now fully integrated with the ESET licensing system, so will now be offered by ESET resellers giving business customers a broader set of products and services. On the client side, it offers full disk encryption, removable media encryption, file and folder encryption and mail encryption. On the server side, the Alliance solution provides remote central management, security key management and enterprise server proxy.

*"We have been talking to ESET for a while now and quickly realised that the DESlock and ESET product offerings are highly complementary, "* said David Tomlinson, Managing Director for DESlock Ltd. *"ESET is renowned for its award-winning IT security solutions and now via the Technology Alliance, ESET can offer full data leakage prevention. "*

About DESlock

DESlock Ltd, the UK leader in data encryption solutions, helps organisations and individuals to protect against all types of data breaches by offering a simple, yet extremely powerful set of encryption tools to protect data in transit and at rest. Its flagship product DESlock+ is used by tens of thousands of businesses worldwide to protect copyrighted materials, medical records, government files and other confidential and personal information. DESlock+ software meets the rigorous FIPS-140-2 standard in the US and is validated by the National Institute of Standards and Technology (NIST). DESlock+, has been awarded SC Magazine's Best Buy for three successive years and was also the winner of Computing Security's Encryption Product of the Year in 2012.

About ESET
ESET®, the pioneer of proactive protection and the maker of the award-winning ESET NOD32® technology, is a global provider of security solutions for businesses and consumers. For over 26 years, the Company continues to lead the industry in proactive threat detection. By obtaining the 80th VB100 award in June 2013, ESET NOD32 technology holds the record number of Virus Bulletin "VB100" Awards, and has never missed a single "In-the-Wild" worm or virus since the inception of testing in 1998. In addition, ESET NOD32 technology holds the longest consecutive string of the VB100 awards of any AV vendor. ESET has also received a number of accolades from AV-Comparatives, AV-TEST and other testing organizations and reviews. ESET NOD32® Antivirus, ESET Smart Security®, ESET Cyber Security® (solution for Mac), ESET® Mobile Security and IT Security for Business are trusted by millions of global users and are among the most recommended security solutions in the world.
The Company has global headquarters in Bratislava (Slovakia), with regional distribution centers in San Diego (U.S.), Buenos Aires (Argentina), and Singapore; with offices in Jena (Germany), Prague (Czech Republic) and Sao Paulo (Brazil). ESET has malware research centers in Bratislava, San Diego, Buenos Aires, Singapore, Prague, Košice (Slovakia), Krakow (Poland), Montreal (Canada), Moscow (Russia) and an extensive partner network for more than 180 countries. More information is available via About ESET and Press Center.
