## DESlock Announces Partnership with ESET

- *Leading data encryption vendor partners with global cybersecurity provider to deliver a more comprehensive suite of security products to customers*

**Taunton, UK, 17<sup>th</sup> April 2013** - DESlock Limited, the recognised UK expert in data encryption solutions announced today a new partnership with the global pioneer in proactive digital protection - ESET, a worldwide organisation that has been providing internet security and antivirus protection software to the market for over 25 years. This new worldwide partnership gives ESET resellers and customers access to DESlock+ data encryption and data leakage prevention at special conditions. With this move, ESET fully endorses DESlock+ as an advanced solution. The newly combined suite of solutions will be available for sale first in South Africa and through ESET and its partners worldwide later in the year.

David Tomlinson, Managing director for DESlock Ltd comments: "We have been talking to ESET for a while now and quickly realised that the DESlock and ESET product offerings are highly complementary. ESET is renowned for its award winning IT security solution and now with DESlock+, ESET can offer full data leakage prevention."

ESET is dedicated to developing high-performing security solutions for home users and corporate customers, detecting and disabling known and emerging forms of malware. Its extensive line of solutions provides maximum protection across all types of environments and platforms from workstations and servers to mobile devices. The advanced detection capabilities and low system requirements of its solutions have continually been recognised by independent anti-malware testing organisations.

"At ESET, protection of our customers, their data, business infrastructure always comes first. DESlock+ is a well-established award-winning brand in the encryption field and we are gladly offering it with our selected products," says Ignacio Sbampato, ESET Chief Sales and Marketing Officer.

DESlock's flagship product DESlock+ was launched in 2006 and offers simple yet powerful data encryption. DESlock+ helps organisations protect against all types of data breaches and allows fully secure collaboration across complex workgroups and teams. DESlock+ has achieved many industry accolades including SC Magazine's 'Best Buy', Computing Security Awards Encryption Product of the Year, and finalist in Network Computer Awards Security Product of the Year.
